

# Maksim Lauryniuk

Software Engineer

## OVERVIEW

Software Engineer with a high interest in the field of web development and skills for web application development. As a software engineer, I strive for continuous learning and have a strong motivation to improve my skills in web development. This allows me to constantly utilize the latest and most advanced approaches to create web applications that are fully responsive in development and design. Keeping up to date with industry trends ensures that the solutions I offer not only meet, but exceed expectations.
